## EDUCATION

**Kamla Nehru Institute of Technology, Sultanpur**

2021-2025

Bachelors of Technology in Computer Science and Engineering

8.26/10 CGPA

**Divine International Academy, Sirsaganj**

2019-2020

Intermediate

94.0 percent

## SKILLS

**Technical Skills** C++ , Javascript , Reactjs , Nodejs , Expressjs , Mongoddb , Nextjs , Firebase , Tailwindcss

**Soft Skills** Teamwork, Problem Solving, Adaptability, Critical Thinking, Creativity, Leadership

**Coursework** DBMS , DSA , OS , OOPS , SQL , Computer Network

## EXPERIENCE

**FullStack Developer at AdamantHr**

July 2025-present

- Contributed to upgrading the company's web platform, integrating performance optimizations and digital growth features.
- Revamped and managed website, admin panel, and backend modules leveraging **Node.js microservices, MongoDB, and Nodemailer** to improve scalability, data handling, and email automation.
- Enhanced website responsiveness and load times through code optimization and caching, fixed UI/UX issues in React components, and integrated RESTful APIs with Express.js and MongoDB for smooth data flow.

**Mern Developer Intern at WebStack Academy**

July 2023-oct 2023

- Gained hands-on experience in full-stack development, including frontend, backend, and database management.
- Developed a MERN stack food delivery web application with features including user authentication, order management, responsive UI, and integrated payment functionality.

## PROJECTS

**RoyalCafe**

- Engineered a full-stack food delivery web application leveraging React.js for dynamic UI, Node.js and Express.js for RESTful APIs, and MongoDB for efficient data storage and management.
- Built end-to-end e-commerce features including JWT-secured authentication, dynamic cart operations, payment gateway integration, and live order tracking through optimized API routes.[\(Try it here\)](#)

**MoviesFlix**

- Built a custom **REST API** with Node.js and Express.js to scrape and serve movie metadata and links from third-party websites, ensuring efficient data extraction and formatting.
- Rendered **scraped** movie data dynamically on a React.js frontend, implementing real-time updates and interactive UI components.

**MediBridge**

- Created **MediBridge**, a SaaS-style healthcare system using **React.js, Tailwind CSS, Node.js, Express.js, and MongoDB**, with secure JWT authentication and role-based access control.
- Designed **scalable, maintainable backend services**, implemented **CI/CD-ready pipelines, environment separation, and cloud-deployable architecture**, enabling reliable patient and doctor workflows.[\(Try it here\)](#)

## CODING PROFILES

- Solved 500+ questions on [leetcode](#)
- 3 Star on [codechef](#)

## ACHIEVEMENTS

- Selected and participated in CODEUTSAVA7.0 at NIT raipur
- secured good ranks in college coding contests
